## About This Game

STARSHIP COMMANDER is a cinematic, choose-your-own-adventure narrative, inspired by classic PC adventure games like Day of the Tentacle and Telltale's Walking Dead series. Go faster-than-light on an adventure through space, as you infiltrate an alien spy facility on a top-secret mission.

Want to role-play as a serious and stoic commander? A brash and argumentative hard-ass? Or just troll the game every chance you get? The open dialogue system allows you to speak your mind freely, and the NPCs react accordingly.

### COMMAND YOUR STORY

Want to know more about your ship and the lore? Just ask Sergeant Sarah Pearson. Ready to blow things up? Just say "Let's go." You command the story, at your pace and with your style, using a next-gen AI system developed by Microsoft and Human Interact. The future of adventure games is here, today.

### ACTION AWAITS

Command the XR71, the galaxy's most advanced fighter, on a mission to infiltrate and destroy the Ecknian spy facility at all costs. Your choices and your performance determine who lives and who dies.

### VISUALLY STUNNING

Made in Unreal Engine 4, and with outstanding visuals designed by AAA game industry veterans, STARSHIP COMMANDER has been meticulously crafted to have a lived-in feel. Mechanical engineers and experienced concept artists worked hand-in-hand to craft the rich universe which you will traverse.

*STARSHIP COMMANDER is a seated experience, and is comfortable for new and experienced VR players alike.*
